

MARCIN TATARSKI

Phone: 07780 436717 | Email: martin.tatarski@gmail.com | Worcester, UK
LinkedIn: [/marcin-tatarski](https://www.linkedin.com/in/marcin-tatarski) | Portfolio: marcin-tatarski.com | GitHub: [/martindocs](https://github.com/martindocs)

I'm a proficient self-taught web developer with expertise in designing user-friendly websites and applications, spanning front-end, back-end, and databases. I'm also actively enhancing my skills through a Front-End Web Development Bootcamp on edX, driven by my passion for creating innovative digital experiences.

TECHNICAL SKILLS

JavaScript ES6+, CSS3/Sass, HTML5, NoSQL, GitHub, MongoDB, Express, React, Node, Photoshop, Inkscape.

PROJECTS

Bug Tracker | github.com/martindocs/bug-tracker-public | www.youtube.com/watch?v=AladMbkvbgM

- Summary: Efficient bug tracking system with customizable options, detailed info, and easy search/filter capabilities.
- Role: Sole author.
- Tools: React, Node.js, Express.js, Sass, MongoDB, HTML, Photoshop

DCO App | marcin-tatarski.com/apps/dco_app/index.html | in-house app for exclusive company use

- Summary: Efficiently track, streamline, and document changes in engineering drawings, literature, and controlled documents.
- Role: Sole author.
- Tools: React, Node.js, Express.js, Sass, MongoDB, HTML, Inkscape.

White Lotus | <http://www.whitelotus.co.uk/>

- Summary: Created for my kickboxing club where I trained back in 2016. The White Lotus website serves as an online hub for club members, providing information on training schedules, events, and a platform for community engagement.
- Role: Sole author.
- Tools: PHP, Javascript, HTML, CSS

Game Hub | <https://github.com/martindocs/flash-card-game> | <https://saif-uddin-93.github.io/flash-card-trivia/>

- Summary: The Game Hub project is a team effort to create a bunch of short games using free APIs.
- Role:
 - Marcin Tatarski [[martindocs](https://github.com/martindocs)]: Created HTML structures, CSS, and Bootstrap for both games. Led overall project management. Game logic, frontend development using JavaScript (ES6+), Bootstrap, and JQuery for Flashcard game.
 - Saif Uddin [[Saif-Uddin-93](https://github.com/saif-uddin-93)]: Focused on Trivia Quiz game logic, JavaScript development, some CSS and mobile responsiveness.
- Tools: JavaScript (ES6+), Bootstrap, JQuery, API's

Readme Generator | <https://github.com/martindocs/mtatarski-readme-generator> |

https://www.youtube.com/watch?v=ZIBIzv1o_7M

- Summary: The Readme Generator is a command-line application built to simplify the creation of professional README files for GitHub projects.
- Role: Sole author.
- Tools: Javascript, Node.js

EXPERIENCE

Freelance React Web Developer **Joerns Healthcare Ltd**

2020 – Present
Pershore, UK

While primarily employed as a CAD Engineer, I've proactively pursued web development as a personal interest, leading to the creation of web applications for my employer:

- DCO App: Developed for tracking product development changes using React, Express, MongoDB, and Node.
- Sling Web App: Designed to streamline internal processes and enhance efficiency.
- Converting paper-based forms to web-based formats using JavaScript.

CAD Engineer **Joerns Healthcare Ltd**

2017 – Present
Pershore, UK

Provide support to the Quality Department in analysing and improving product quality, which includes:

- Revising/Creating new CAD drawings reflecting improvements.
- Ensuring compliance with UK/EU legal requirements and best practices regarding document control and maintenance.
- Maintaining CAD drawing records to uphold internal policies and external regulations.

General Assistant **Tesco PLC**

2006 – 2017
Worcester, UK

Provided exceptional customer service by assisting shoppers and ensuring a positive shopping experience:

- Skilfully organizing and replenishing shelves, maintaining product availability, and ensuring a well-organized shopping environment.
- Demonstrating a strong work ethic in handling various general duties essential to store maintenance.
- Collaborating with the team to provide excellent service and a welcoming store environment.

CAD Operator **Delapena Honing Equipment Ltd.** **UK**

2008
Cheltenham,

Involved in various aspects of CAD operations, which included tasks related to design improvement:

- Adapting and enhancing existing drawings.
- Digitizing paper-based drawings to facilitate access and collaboration.
- Contributing to the redesign of Numerical Control honing machines.

EDUCATION

Certificate, Front End Web Development – edX Bootcamp, UK (*In Progress*)

Bachelor's degree, Administration and Safety of Local Computer Networks - IT Technical School, Poland

Masters Degree, Power System and Facilities - The University of Szczecin, Poland

Engineer Degree, Mechanics and Machine Construction - The University of Szczecin, Poland
